Art Unit: 1616

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 7-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rabe et al.

Rabe et al teach cosmetic products (title). Improved lubricity is disclosed (column 2 line 25). WP-660 is specified (column 8 line 23), the same polymer applicants disclose on page 13 paragraph 45). Eye shadow is disclosed (column 19 example 6).

It would have been obvious to one of ordinary skill in the art to use the product of Rabe et al to achieve the beneficial effect of improved lubricity. As to the claimed method of reducing the appearance of dark circles surrounding the eyes, it is argued that it would be an obvious expedient, even to the layman, to use the Rabe et al eye shadow to disguise the appearance of dark circles around the eyes, thereby reducing the appearance of dark circles surrounding the eyes.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1616

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
